Call Public APIs in JS: Clean Patterns

Enter the following Code in Replit:

```
async function getJoke() {  
  try {  
    let res = await fetch("https://official-joke-api.appspot.com/random_joke")  
    let joke = await res.json()  
    console.log(joke.setup, "-", joke.punchline)  
  } catch (err) {  
    console.log("Error:", err)  
  }  
}  
  
getJoke()
```
