

# SUCCESS SECRETS WITH ALEX

## Mini Project: Shopping Cart (Arrays + Objects)

### GOAL

- Use **Vibe Coding**
- Store a list of items in an **array**.
- Each item is an **object**: { name, qty, price }.
- Print a small receipt with template strings.
- 

### CODE

```
const readline = require("readline");

const rl = readline.createInterface({
  input: process.stdin,
  output: process.stdout,
});

console.log("-----");
console.log("SHIPPING CART");
console.log("-----");

const GadgetDetails = ["Product Name", "Brand", "Warranty", "Quantity",
"Price"];

console.log("\nGadget Fields:");
console.log(GadgetDetails);

let mobile = { name: "Samsung Galaxy S25", brand: "Samsung", warranty:
2, qty: 1, price: 25000 };
let laptop = { name: "HP Laptop", brand: "HP", warranty:
3, qty: 1, price: 45000 };
```

```

let earbuds      = { name: "Boat Earbuds",      brand: "Boat",
warranty: 1, qty: 2, price: 1500  };
let smartwatch = { name: "Noise Smart Watch",  brand: "Noise",
warranty: 1, qty: 1, price: 3000  };

let cart = [mobile, laptop, earbuds, smartwatch];

console.log("\n----- AVAILABLE PRODUCTS -----");
cart.forEach((item, index) => {
  console.log(`${index + 1}. ${item.name} - ₹${item.price}`);
});

// Ask user to enter product name
rl.question("\nEnter Product Name to Search: ", (searchProduct) => {

  let result = cart.find(item => item.name === searchProduct);

  if (result) {

    console.log("\n----- PRODUCT DETAILS -----");
    console.log(`Name      : ${result.name}`);
    console.log(`Brand      : ${result.brand}`);
    console.log(`Warranty   : ${result.warranty} Years`);
    console.log(`Price       : ₹${result.price}`);

    rl.question("\nEnter Quantity You Want to Purchase: ", (inputQty) => {

      let qty = parseInt(inputQty);

      if (isNaN(qty) || qty <= 0) {
        console.log("Invalid quantity entered.");
        rl.close();
        return;
      }

      let selectedTotal = qty * result.price;

      console.log("\n----- PURCHASE DETAILS -----");

```

```

        console.log(`Product    : ${result.name}`);
        console.log(`Quantity  : ${qty}`);
        console.log(`Price     : ₹${result.price}`);
        console.log(`Total     : ₹${selectedTotal}`);

        // Full Receipt
        console.log("\n----- FULL CART RECEIPT -----");

        let total = 0;

        for (let item of cart) {
            let amount = item.qty * item.price;
            console.log(`${item.name} x ${item.qty} = ₹${amount}`);
            total += amount;
        }

        console.log(`\n[Your Selection] ${result.name} x ${qty} =
        ₹${selectedTotal}`);

        console.log("\n-----");
        console.log(`Grand Total = ₹${total + selectedTotal}`);

        rl.close();
    });

} else {
    console.log("\nProduct Not Found.");
    rl.close();
}
});

```
