Mini-Project: Zapier first Automation

SHERIN MARY

Interview Registration Automation using Zapier

Project Description

This project automates the interview registration process. When a candidate submits an interview application through a Google Form, the information is automatically stored in Google Sheets, and a confirmation email is sent to the candidate using Gmail through Zapier. This eliminates manual work and ensures every applicant receives an instant acknowledgment.

Objective

- Automate the interview registration process.
- Store candidate details in an organized manner.
- Send automatic confirmation emails.
- Reduce manual effort and improve communication.

Tools Used

Tool	Purpose
Google Forms	Collect candidate details
Google Sheets	Store and review all registrations
Zapier	Automate the workflow between applications
Gmail	Send automatic confirmation emails

Workflow

Candidate

|

Google Form

|

Google Sheets

(Stores Registration Details)

|

Zapier

(Detects New Registration)

Gmail

(Sends Confirmation Email)

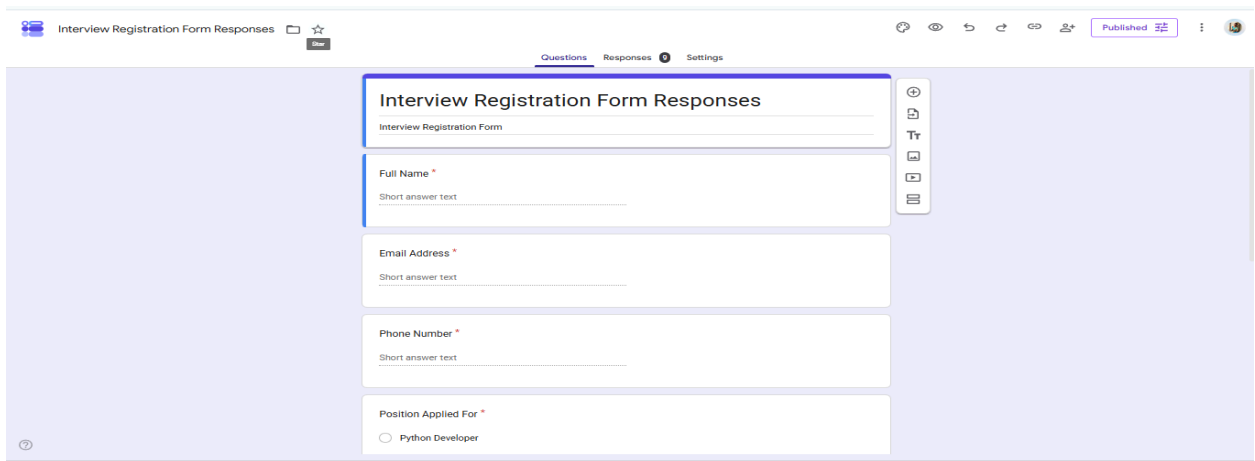

Working Process

1. The candidate fills out the Interview Registration Google Form.
2. The submitted details are automatically saved in Google Sheets.
3. Zapier detects the new registration entry.
4. Zapier retrieves the candidate's details from Google Sheets.
5. Gmail automatically sends a confirmation email to the candidate.
6. HR can review all registered candidates anytime through Google Sheets.

The screenshot shows a Google Form titled "Interview Registration Form Responses". The form is currently in the "Questions" tab, with "Responses" and "Settings" tabs also visible. The form contains the following questions:

- Interview Registration Form** (Text input field)
- Full Name *** (Short answer text field)
- Email Address *** (Short answer text field)
- Phone Number *** (Short answer text field)
- Position Applied For *** (Radio button selection with the option "Python Developer")

The form is published, as indicated by the "Published" button in the top right corner. The background of the form editor is a light purple color.
