

Mini-Project: Handle this error in JS

SHERIN MARY P.J

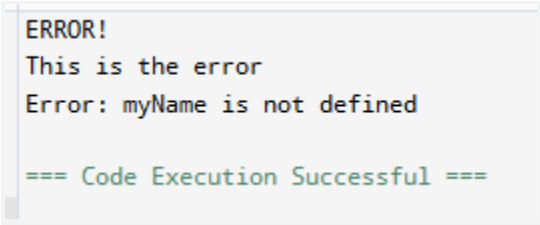

Enter the following Code in Replit:

// Example 1: Using a variable that doesn't exist

```
console.log(myName)

try {
  console.log(myName);
} catch (error) {
  console.log("Error:", error.message);
}
```

OUTPUT

```
ERROR!
This is the error
Error: myName is not defined

=== Code Execution Successful ===
```

// Example 2: Calling a function that doesn't exist

```
makeBiryani()

try{
  makebiryani()
}catch(error){
  console.log("Error:",error.message);
}
```

OUTPUT

```
ERROR!  
Error: makebiryani is not defined  
  
=== Code Execution Successful ===
```

// Example 3: Throwing your own error

```
let age = 15
```

```
if (age < 18) {
```

```
    throw new Error("Too young for driving license!")
```

```
}
```

```
console.log("License granted!")
```

```
try{
```

```
let age = 15
```

```
if (age < 18) {
```

```
    throw new Error("Too young for driving license!")
```

```
}
```

```
console.log("License granted!")
```

```
}
```

```
catch(error){
```

```
    console.log("Error:",error.message)
```

```
}
```

OUTPUT

```
ERROR!  
Error: Too young for driving license!  
  
=== Code Execution Successful ===
```

// Example 4: Accessing invalid array element

```
let numbers = [1, 2, 3]
```

```
console.log(numbers[5].toString())
```

#4

```
try{  
  let numbers = [1, 2, 3]  
  console.log(numbers[5].toString())  
}  
catch(error){  
  console.log("Error:",error.message)  
}
```

OUTPUT

```
ERROR!  
Error: Cannot read properties of undefined (reading 'toString')  
  
=== Code Execution Successful ===
```

[STEP 2] Instructions for Sharing Your Mini-Project: Handle this error in JS" Google Doc

Congratulations on completing your "Mini-Project: Handle this error in JS"! Sharing your work with our community is a powerful step toward turning them into reality. Here's how you can share your document with view-only access:

Add your Code, Output and Screenshots to the Google Doc.

Steps to Share Your Google Doc:

1. Open Your Document:

- Navigate to your Google Drive and open the document you've created.

2. Access Sharing Settings:

- Click on the blue "Share" button located in the top-right corner of the document.

3. Get Shareable Link:

- In the sharing window, click on "Get shareable link" in the top-right corner.

4. Set Link Permissions:

- A link will be generated, and you'll see a dropdown menu.
- Select "Anyone with the link can view" to ensure others can see your document but not edit it.

5. Copy the Link:

- Click "Copy link" to copy the URL to your clipboard.

6. Share with the Community:

- Paste the link into our Skool Community to share your document with fellow members.

7. Add your Name on Top:

- Make sure to mention your name on top so that we know who submitted the assignment.

8. Nothing Else:

- Don't share PDFs, MS Office docs, etc.
