

SUCCESS SECRETS WITH ALEX

Mini-Project: Write Code for first fav. Project

[STEP 1] Write Code for Any Topic based on your interests

Movie Guessing Game

Project Idea

Movie Guessing Game (Multi-Language Edition)

- User selects a language (Tamil, Telugu, English).
- System randomly selects a movie from that language.
- System displays clues one by one.
- User guesses the movie.
- If wrong, another clue is shown.
- Maximum 3 attempts.
- Final score displayed out of 10.

[STEP 2] Edit the prompt based on your Idea:

ACTION -> ACT as the best JavaScript Coder in the world and write the code using the details below that I can execute in an Online Compiler.

PURPOSE -> Create a Movie Guessing Game where the user selects a movie language and guesses the movie name based on clues provided by the system.

INPUT ->

1. Display a welcome message.
2. Ask the user to choose a movie language:
 - Tamil
 - Telugu
 - English
3. The system should automatically select a movie from the chosen language.
4. The system should display clues one by one.
5. After each clue, ask the user to guess the movie name.

6. Allow up to 3 attempts.

OUTPUT ->

Step 1: Welcome the user.

Step 2: Display available movie languages.

Step 3: Accept the user's language selection.

Step 4: Randomly select a movie from the chosen language.

Step 5: Display clues one by one.

Step 6:

- If the user enters the correct movie name, display:
"Congratulations! Correct Answer."
- If the answer is incorrect, display:
"Wrong Answer. Here's another clue."

Step 7:

- If all attempts are exhausted, reveal the correct answer.

Step 8:

- Display the final score out of 10.

Scoring:

- Correct on 1st attempt = 10 points
- Correct on 2nd attempt = 7 points
- Correct on 3rd attempt = 5 points
- Incorrect after all attempts = 0 points

The program should be user-friendly, properly formatted, include comments, handle invalid inputs, and run successfully in an online JavaScript compiler.

[STEP 3] CODE

main.js

```
1  const readline = require("readline");
2
3  const rl = readline.createInterface({
4    input: process.stdin,
5    output: process.stdout
6  });
7
8  const movies = {
9    Tamil: [
10     {
11       name: "Leo",
12       clues: [
13         "Released in 2023",
14         "Directed by Lokesh Kanagaraj",
15         "Hero is Vijay",
16         "Action Thriller Movie"
17       ]
18     },
19     {
20       name: "Jailer",
21       clues: [
22         "Released in 2023",
23         "Hero is Rajinikanth",
24         "Directed by Nelson",
25         "Prison-related title"
26       ]
27     }
28   ],
29   Telugu: [
30     {
31       name: "Pushpa",
32       clues: [
33         "Hero is Allu Arjun",
34         "Released in 2021",
35         "Red sandalwood smuggling",
36         "Famous dialogue: Thaggede Le"
37       ]
38     }
39   ],
40   English: [
41     {
42       name: "Titanic",
```

```

43 -         clues: [
44             "Released in 1997",
45             "Romantic drama",
46             "Ship disaster movie",
47             "Directed by James Cameron"
48         ]
49     }
50 ]
51 };
52
53 console.log("=====");
54 console.log("      GUESS THE MOVIE GAME");
55 console.log("=====");
56
57 console.log("\nChoose a Language:");
58 console.log("1. Tamil");
59 console.log("2. Telugu");
60 console.log("3. English");
61
62 - rl.question("\nEnter your choice: ", (choice) => {
63
64     let language;
65
66 -     switch(choice) {
67         case "1":
68             language = "Tamil";
69             break;
70         case "2":
71             language = "Telugu";
72             break;
73         case "3":
74             language = "English";
75             break;
76         default:
77             console.log("Invalid Choice!");
78             rl.close();
79             return;
80     }
81
82     const movieList = movies[language];
83     const selectedMovie =
84         movieList[Math.floor(Math.random() * movieList.length)];

```

```

85
86     let attempt = 0;
87
88     function askGuess() {
89
90         console.log("\nClue " + (attempt + 1) + ":");
91         console.log(selectedMovie.clues[attempt]);
92
93         rl.question("\nYour Guess: ", (guess) => {
94
95             if (
96                 guess.trim().toLowerCase() ===
97                 selectedMovie.name.toLowerCase()
98             ) {
99                 console.log("\n🎉 Correct Answer!");
100                 console.log("Movie Name: " + selectedMovie.name);
101                 console.log("Score: " + (10 - attempt * 2) + "/10");
102                 rl.close();
103             } else {
104
105                 attempt++;
106
107                 if (attempt < 3) {
108                     console.log("\n❌ Wrong Guess!");
109                     console.log("Here's another clue...");
110                     askGuess();
111                 } else {
112                     console.log("\n😞 Game Over!");
113                     console.log("Correct Movie: " + selectedMovie.name);
114                     rl.close();
115                 }
116             }
117         });
118     }
119
120     askGuess();
121 });

```

[STEP 4] OUTPUT

Output

```
=====
      GUESS THE MOVIE GAME
=====

Choose a Language:
1. Tamil
2. Telugu
3. English

Enter your choice: 1

Clue 1:
Released in 2023

Your Guess:

❌ Wrong Guess!
Here's another clue...

Clue 2:
Directed by Lokesh Kanagaraj

Your Guess: master

❌ Wrong Guess!
Here's another clue...

Clue 3:
Hero is Vijay

Your Guess: leo

🎉 Correct Answer!
Movie Name: Leo
Score: 6/10
